

STAFF REPORT

14

CASE NUMBER: P. D. 08-333 CC **L.U.C.B. MEETING:** January 8, 2009

DEVELOPMENT: APPLINGWOOD PLANNED DEVELOPMENT, 3RD Amendment

LOCATION: Southwest corner of Dexter Road and Appling Road

COUNCIL DISTRICT(S): Unincorporated Shelby County

OWNERS/APPLICANTS: Dancy Investments, Inc.

REPRESENTATIVE: Prime Development Group, Inc.

REQUEST: Planned development amendment to allow a commercial-indoor amusement facility for ice hockey in Area 'C' of the Outline Plan.

AREA: 6.53 Acres

EXISTING LAND USE & ZONING: Vacant land currently governed by Applingwood Planned Development, 2nd Amendment(P.D. 97-376 CC) Area 'C' for Local Commercial(C-L) District land use.

SURROUNDING LAND USES AND ZONING:

North: Vacant land within this Outline Plan and a vacant parcel, restaurant and church banquet hall in Planned Commercial(C-P) District and office/warehouse facility in Appling Commons, Amended(P.D.94-317 CC).

East: Gasoline sales, neighborhood retail center and vacant land in Applingwood Planned Development, 2nd Amendment(P.D. 97-346 CC).

South: Nursing home, senior living facility and medical offices in Applingwood Planned Development, 2nd Amendment(P.D. 97-346 CC).

West: Vacant land, single family homes on estate lots and cell tower(S.U.P.08-214 CC) all in Agricultural(AG) District.

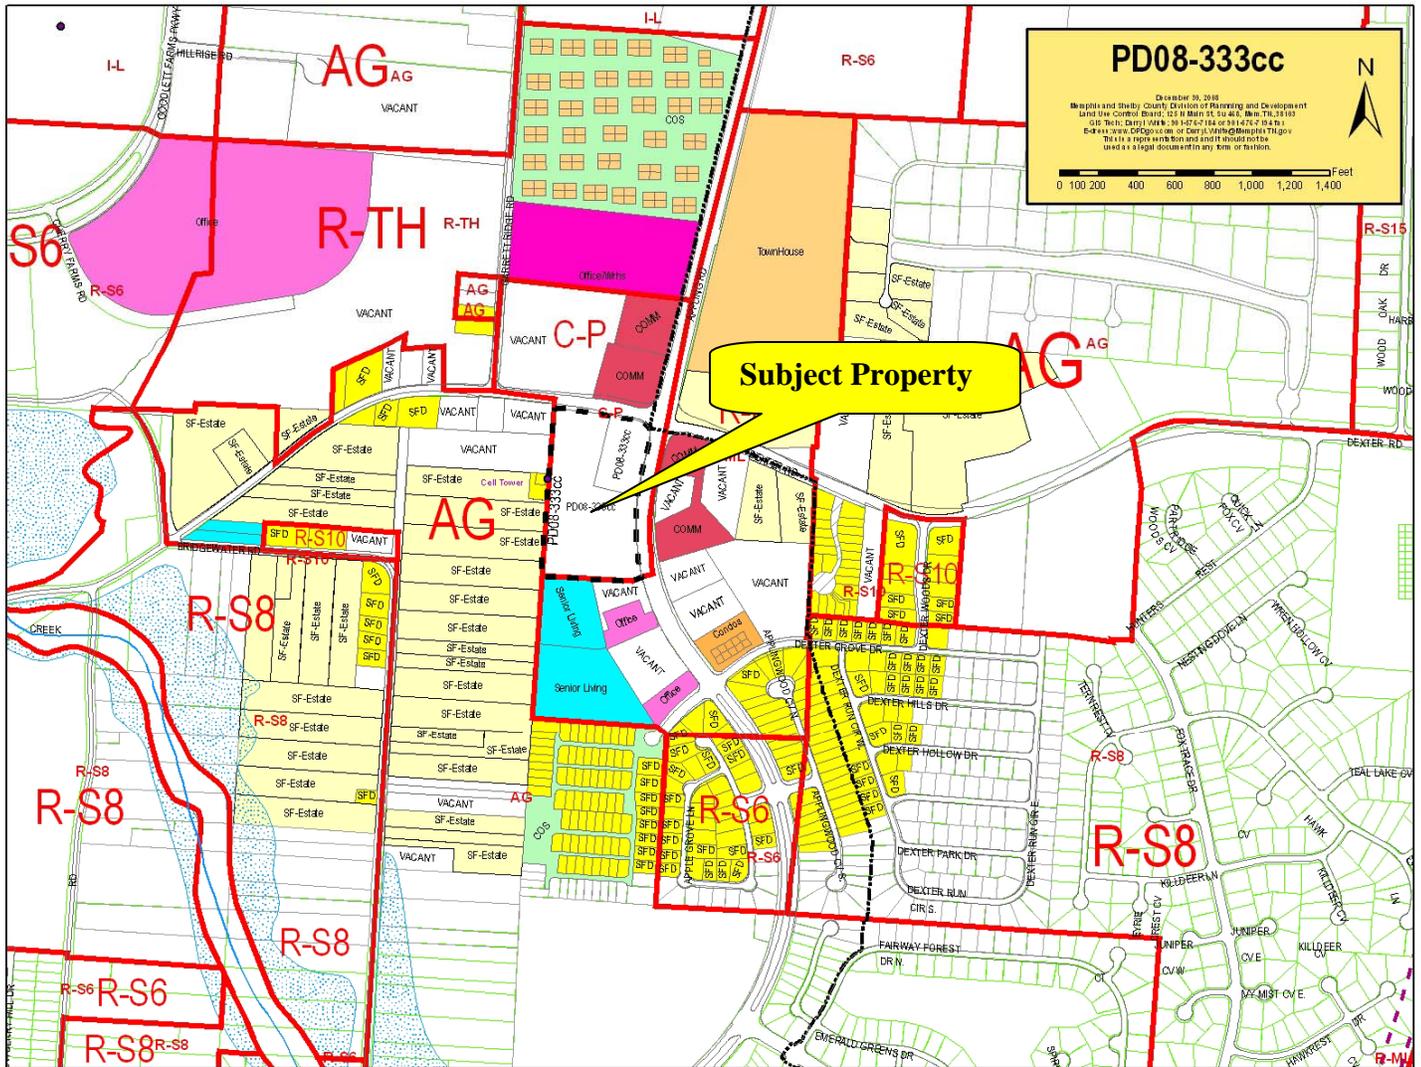

OFFICE OF PLANNING AND DEVELOPMENT RECOMMENDATION:

Approval with Conditions

CONCLUSIONS:

1. The subject property is a vacant parcel of land consisting of 6.53 acres and designated Parcel 'C' in the Outline Plan for Applingwood Planned Development. This parcel currently allows Local Commercial(C-L) District land uses which are primarily neighborhood services such as bank, dry cleaning, beauty/barber, photo and retail shops.
2. The immediate area began to develop in the early 1980's with Cordova Club and Hunters' Hollow subdivisions to the south, but is adjacent to the Bridgewater Subdivision. The area has been primarily developed by planned developments with the exceptions of Bridgewater, Bellevue Baptist and the Bellevue Woods senior living community.
3. The requested amendment to Area 'C' is for the development of a new one-story building to allow a commercial-indoor amusement facility for ice hockey located in proximity to established single family neighborhoods and within one-half mile of a public school.
4. The planned development concept has been that of a mixed-use development with neighborhood services within walking distance of single family homes and an employment center. This amendment for an indoor amusement facility maintains consistency in concept planning of the area with existing development patterns conforming to recommendations of the Germantown Parkway Area Study.
5. Although the mixed-use concept plan has been implemented, this amendment to allow a modification to the future land use plan is an acceptable land use to be included in a neighborhood center. This application for project review of a specific land use meets the concept planning objective for a compatible land use change.

STAFF ANALYSIS:

Site Description

The subject property is a vacant parcel of land consisting of 6.53 acres and designated Parcel 'C' in the Outline Plan for Applingwood Planned Development. The parcel is located at the southwest corner of major roads, Dexter and Appling in the Cordova community and the Memphis Reserve Area. The site primarily fronts on Appling Road with curb and gutter, including a median with access also from Dexter Road. This parcel has remained vacant since the Outline Plan was approved in 1988 and is part of a larger 68.4 acre tract of land that includes residential, institutional, office and retail commercial land use.

This parcel currently allows Local Commercial(C-L) District land uses which are primarily neighborhood services such as such as a bank, dry cleaning, beauty/barber, photo and retail shops. The site is located in close proximity to single family neighborhoods, senior living and apartment communities, places of worship and an employment center. The immediate area began to develop in the early 1980's with Cordova Club and Hunters' Hollow subdivisions to the south, but is adjacent to the Bridgewater Subdivision, one of the first subdivisions in this part of unincorporated Shelby County.

Area Overview

The surrounding land use and zoning was primarily approved by planned developments with the exceptions of Bridgewater, Bellevue Baptist and the Bellevue Woods senior living community. The adjacent property north and within this plan also permits C-L District land uses. There are single family homes in Dexter Woods Subdivision to the east as well as to the south along Appling Road. The land use west is single family residential in Bridgewater Subdivision and to the north—a mixed-use plan for office, commercial, and industrial land uses in Appling Commons Planned Development.

A senior living community of townhouses and single family estate lots in R-ML District zoning sharing the northeast corner of Appling and Dexter roads. Directly adjacent and south of the subject property are medical offices and senior living facilities within this development and two(2) remaining parcels undeveloped. The land uses farther north are approved planned developments with existing developments of office campuses and warehouses located in the Interstate 40 Employment Center. There are also single family homes along Garrett Ridge Road adjacent to approved and developed planned developments.

The land use immediately north is an office/warehouse building for FedEx World Service Center, the Bellevue Center Conference and Banquet Hall and a large restaurant building in the Planned Commercial(C-P) District. Farther south are single family neighborhood for Cordova Forest Subdivision and The Orchards Subdivisions governed by the Applingwood Planned Development(P.D. 94-352 CC). The land use directly across Appling Road is gasoline sales/convenient store and a neighborhood retail center located on the immediate southeast corner of this intersection.

Request vs. Concept Planning Objective

The requested amendment to Area 'C' is for the development of a new one-story building to allow a commercial-indoor amusement facility for ice hockey located in proximity to established single family neighborhoods and within one-half mile of a public school. The original plan approved in 1988 allowed a neighborhood commercial center as well as institutional, office, and multi-family residential land uses farther south of the major road intersection. The Applingwood Planned Development has primarily developed in this manner, except for the office approved in Area A' and the multi-family approved in Area 'B' of the plan. These areas of the plan have developed as single family homes along both sides of Appling Road.

The planned development concept has been that of a mixed-use development with neighborhood services within walking distance of single family homes and an employment center. The area has developed in this manner with a variety of housing types, including the aging population. The area has and continues to promote the development of a network of sidewalks, except along Dexter Road which has yet to be improved. This amendment for an indoor amusement facility maintains consistency in concept planning of the area with existing development patterns conforming to recommendations of the Germantown Parkway Area Study.

This request to allow an indoor amusement facility for ice hockey is a recreational use supported by single and multi-family housing, including a public school. This facility is an acceptable land use alternative consistent with the neighborhood center concept being located within walking distance of residential development. The development is compatible with residential developments and will compliment the senior living development. Although the mixed-use concept plan has been implemented, this amendment to allow a modification to the future land use plan is an acceptable land use to be included in a neighborhood center. This application for project review of a specific land use meets the concept planning objective for a compatible land use change.

RECOMMENDATION: Approval with Conditions

Site Plan Review

The project review is for construction of a one-story building 65,000 square feet in area with a floor area ratio of 0.23 F.A.R or 23% of the lot area. This ratio, including access, circulation and landscaping is consistent and coincides with the original development plan for Applingwood Planned Development. The mass of the building is setback from Appling Road a minimum of 150 feet with a pick-up/drop-off area, including parking in the front and side yard for a total of 290 parking spaces. The site plan also provides substantial green spaces.

The access to the building is two curb-cuts to Appling Road and one curb-cut to Dexter Road. The development maintains internal circulation to the remainder of the parcel, including shared curb-cuts. The parking areas will have tree islands with one(1) street tree to meet the landscape ordinance, including required landscape screens along the front and rear property lines. The tree type should be specified on the landscape plan and included with the final plan of development. The building separation along the south property line prevents any outdoor activity, including traffic circulation along this side yard. This plan will be a continuation of a neighborhood center envisioned at this intersection and will be a benefit to the community.

OUTLINE PLAN CONDITIONS: ***[Bold-Italic-Underlined: Amendments]***

I. USES PERMITTED:

- A. Area A: -- Any use permitted by right and administrative site plan review in the General Office (O-G) District, a residential home for the elderly including independent living quarters, assisted living quarters, a nursing home and adult day care.
- B. Area A-1: (11.8 acres located on the west side of Appling Road)-Any use permitted by right and administrative site plan review in the General Office(O-G) District, a residential home for the elderly including assisted living quarters, a nursing home and adult day care.
- C. Area B -- Any use permitted in the Multiple Dwelling Residential(R-ML) District.
- D. Area C -- Uses permitted by right or by administrative site plan review in the Local Commercial (C-L) District, **including a commercial-indoor amusement facility for ice hockey with a minimum of 290 parking spaces.**

II. BULK REGULATIONS:

- A. Area A: The bulk regulations of the O-G and R-ML District shall apply with the following exceptions:
 - 1. Maximum Floor Area Ratio(F.A.R.) for office shall be .25.
 - 2. Maximum Floor Area Ratio shall be .33 with a maximum of two-hundred twelve(212) dwelling units for residential home for the elderly.
- B. Area A-1: General Office District uses shall conform to the regulations of the O-G District.
- C. Area A-1: Residential Home for the Aged, including assisted living, Nursing Home, and Adult Day Care shall conform to the bulk regulations of the R-ML District.
- D. Area B: The bulk regulations of the R-ML District shall apply with the following exception:
Maximum density shall be 15 dwelling units per acre.
- E. Area C: The bulk regulations of the C-L District shall apply with the following exception:
Maximum .25 F.A.R.

III. ACCESS & CIRCULATION:

- A. Dedicate 57 feet from centerline of Appling Road and improve in accordance with the Subdivision Regulations.
- B. Dedicate and improve Dexter Road to provide for a 68 foot right-of-way and 48 feet of pavement. Additional width shall be provided at the intersection to provide for a left turn lane.

- C. Dedicate a three centered radius at the intersection of Appling and Dexter Roads.
- D. Street B west of Appling Road to the east boundary of the County Conservation Board tract shall be reserved for dedication and improvement of the full 68 foot right-of-way in conjunction with the development of a park on the County Conservation Board property. If a final plan is filed for Area A before the use of the County Conservation Board tract is resolved, Street B shall be dedicated and a bond shall be posted in lieu of improvement. Should the County Conservation Board tract not be developed as a park within 10 years or should the tract be sold this Condition III D. shall become inapplicable.
- E. Dedicate the full 68 foot right-of-way of Street B from Appling Road to the east boundary of the site.
- F. Curb cuts permitted:
 - 1. Area A -- Appling Road - five(5) on the west side and two along the eastern frontage. No curb-cut shall be permitted on Dexter Grove Drive.
 - 2. Area B -- Three(3).
 - 3. Area C -- Two(2) on the west side of Appling Road.
Two(2) on the east side of Appling Road with no curb cut beginning closer than 300 feet from the centerline of Dexter Road.
One(1) on the south side of Dexter Road east of Appling Road.
One(1) on the south side of Dexter Road west of Appling Road beginning no closer than 300 feet from the centerline of Appling Road.
- G. The design and location of the curb cuts shall be subject to the approval of the County Engineer.
- H. All private drives shall be constructed to meet City/County standards and provide a minimum pavement width of 22 feet exclusive of curb and gutter.
- I. Internal circulation is required between all phases/sections/lots.

IV. LANDSCAPING & SCREENING:

- A. A fifteen foot wide landscape strip Plate 'A-3' or an equivalent shall be provided along the full length of the road frontages of the commercial, office and multi-family parcels, except that it shall not interfere with sight triangles adjacent to entrances/exits.
- B. A fifteen foot wide landscape screen, Plate 'B-3' or an equivalent, shall be provided along the east and west property lines adjacent to the proposed park and residential properties subject to the approval of the Office of Planning and development. The requirement for a landscape screen shall be deleted from any part of the adjacent property developed for any use other than a park or residential.

- C. The required landscaping and planting screens shall be illustrated on the outline and final plans. All landscaping and planting screens shall be provided exclusive of all land encumbered by easements.
- D. Internal landscaping shall be provided at a ratio of 300 square feet for every twenty(20) vehicles and one shade tree (Tree 'A') from the Landscape Ordinance for every 20 parking spaces.
- E. Equivalent landscaping may be substituted for that required above, subject to the approval of the Office of Planning and Development.
- F. Lighting standards shall have a maximum height of 30 feet and shall be directed so as not to glare onto residential property.
- G. Refuse containers shall be completely screened from view from adjacent properties and public roads subject to the approval of the Office of Planning and Development.

V. SIGNS:

- A. Area C: -- In accordance with the C-L District Regulations.
- B. Areas A and A-1: -- In accordance with the O-G District regulations.
- C. Area B: – In accordance with the R-ML District regulations.
- D. The minimum sign setback from street rights-of-way shall be 15 feet.

VI. DRAINAGE:

- A. All drainage plans shall be submitted to the City and County Engineer for review.
- B. Drainage improvements, including possible on-site detention to be provided under contract in accordance with the Subdivision Regulations and the City of Memphis Drainage Design Manual.
- C. This project must be evaluated by the Tennessee Department of Health and Environment regarding their jurisdiction over the watercourses on this site in accordance with the Water Quality Control Act of 1977 as amended (TCA 69-3-101 et seq.).

- VII. The Land Use Control Board may modify the bulk, access, circulation, parking, landscaping, loading, screening, signage, and other site requirements if equivalent alternatives are presented; provided, however, any adjacent property owner who is dissatisfied with the modifications of the Land Use Control Board hereunder may, within ten days of such action file a written appeal to the director of Office of Planning and Development, to have such action reviewed by Appropriate Governing Bodies.

VIII. OTHER:

- A. The approval of this planned development does revoke the C-P District General Plan that was previously approved on this property.
- B. The consent of succeeding owners of any lot or lots shall not be required to make amendments to the planned development. All property owners within the planned development shall be notified by mail of a proposed amendment.

IX. A final plan shall be filed within five years of the approval of the Outline Plan. The Land Use Control Board may grant extensions at the request of the applicant.

X. Any final plan shall include the following:

- A. The Outline Plan Conditions,
- B. A Standard Subdivision Contract as defined by the Subdivision Regulations for any needed public improvements,
- C. The exact location and dimensions including height, of buildings or buildable areas, parking areas, utility easements, drives, trash receptacles, loading facilities, and required landscaping and screening areas,
- D. The content of all landscaping and screening to be provided,
- E. The location and ownership, whether public or private of any easements,
- F. If applicable, a statement conveying all common facilities and areas to a Property Owners' Association or other entity, for ownership and maintenance purposes,
- G. The following note shall be placed on the final plat of any development requiring on-site storm water detention facilities: The areas denoted by "Reserved for Storm Water Detention" shall not be used as a building site or filled without first obtaining written permission from the City or County Engineer, as applicable. The storm water detention systems located in these areas, except for those parts located in a public drainage easement, shall be owned and maintained by the property owner and/or Property Owners' Association. Such maintenance shall be performed so as to ensure that the system operates in accordance with the approved plan on file in the City/County Engineer's Office. Such maintenance shall include, but not be limited to: removal of sedimentation, fallen objects, debris and trash; mowing; outlet cleaning; and repair of drainage structures.

GENERAL INFORMATION:

Street Frontage: Dexter Road-----+/-45.06 linear feet.
Appling Road-----+/-564.87 curvilinear feet.

Planning District: Shelby Farms-Germantown

Census Tract: 211.23

Zoning Atlas Page: 1950

Parcel ID: D0207 00305

Zoning History: In 1988, the Applingwood Planned Development was approved for a mixed-use concept planning Outline Plan with amendments approved in 1994 and 1997 for senior living. Prior to this date, the Planned Commercial(C-P) District zoning of the site date to the adoption of the 1980 zoning map amendments.

DEPARTMENTAL COMMENTS:

The following comments were provided by agencies to which this application was referred:

City Engineer:

1. Standard Subdivision Contract as required in Section 500 of Subdivision Regulations.

Sewers:

2. City sanitary sewers are available at developer's expense.
3. The developer shall extend sanitary sewers through the site to serve upstream properties.

Roads:

4. Dexter Road is designated as a Priority 1 on the MPO Major Road Plan. Dedicate 54 feet from centerline and improve in accordance with Subdivision Regulations.

Curb Cuts/Access:

5. Provide internal circulation between adjacent phases, lots, and sections. Common ingress/egress easements shall be shown on the final plats.
6. The City Engineer shall approve the design, number and location of curb cuts.
7. Any existing nonconforming curb cuts shall be modified to meet current City Standards or closed with curb, gutter and sidewalk.

Drainage:

8. Drainage improvements, including on-site detention, shall be provided under a Standard Subdivision contract in accordance with Subdivision Regulations and the City of Memphis Drainage Design Manual.
9. Drainage data for assessment of on-site detention requirements shall be submitted to and approved by the City Engineer.
10. The developer should be aware of his obligation under 40 CFR 122.26(b)(14) and TCA 69-3-101 et. seq. to submit a Notice of Intent (NOI) to the Tennessee Division of Water Pollution Control to address the discharge of storm water associated with the clearing and grading activity on this site.

General Notes:

11. The width of all existing off-street sewer easements shall be widened to meet current City standards.
12. All commons, open areas, lakes, drainage detention facilities, private streets, private sewers and private drainage systems shall be owned and maintained by a Property Owner's Association. A statement to this effect shall appear on the final plat.
13. Required landscaping shall not be placed on sewer or drainage easements.

Shelby County Engineer: No comments as of 1/2/'09.

City Fire Division: No comments received.

Shelby County Fire Department: No comments received.

Memphis & Shelby County Health Department- No objections-see attachments.

Shelby County Board of Education: No comments as of 1/2/'09.

Construction Code Enforcement: No comments received.

Memphis Light, Gas and Water:

MLGW has reviewed the referenced application, and has no objection, subject to the following conditions:

- **It is the responsibility of the owner/applicant** to pay the cost of any work performed by MLGW to install, remove or relocate any facilities to accommodate the proposed development.
- **It is the responsibility of the owner/applicant** to identify any utility easements, whether dedicated or prescriptive (electric, gas, water, CATV, telephone, sewer, drainage, etc.), which may encumber the subject property, including underground and overhead facilities. No permanent structures will be allowed within any utility easements.
- **It is the responsibility of the owner/applicant** to comply with the **National Electric Safety Code (NESC)** and maintain minimum horizontal/vertical clearances between existing overhead electric facilities and any proposed structures.
- **Landscaping is prohibited** within any MLGW utility easement, without prior approval.

- **It is the responsibility of the owner/applicant** to contact **TN-1-CALL @ 1.800.351.1111**, before digging, and to determine the location of any underground utilities including electric, gas, water, CATV, telephone, etc
- **It is the responsibility of the owner/applicant** to submit a detailed plan to MLGW Engineering for the purposes of determining the availability and capacity of existing utility services to serve any proposed or future development(s).
- **It is the responsibility of the owner/applicant** to contact MLGW engineering to determine if system improvements may be required and any related cost:
 - MLGW Engineering - **Residential Development:** 528-4858.
 - MLGW Engineering - **Commercial Development:** 367-3343.
- **It is the responsibility of the owner/applicant** to pay the cost of any utility system improvements necessary to serve the proposed development with electric, gas or water utilities.

AT&T: No comments.

Memphis Area Transit Authority(MATA): No comments received.

OPD-Regional Services:

This application was reviewed by the MPO staff/Department of Regional Services on December 11, 2008. Both Appling Road and Dexter Road have been identified as major thoroughfares in the 2030 Long Range Transportation Plan (LRTP). Dexter Road is identified in the Horizon Year Plan to be widened to five lanes by the year of 2015. Appling Road south of Dexter Road is in neither the LRTP's Horizon Year nor Vision Year list of proposed projects. The MPO recommends dedication and improvement as deemed appropriate by the County Engineer.

OPD-Plans Development: No comments.

AIR POLLUTION CONTROL
814 Jefferson Avenue, 4th Floor
Memphis, Tennessee 38105**

**RESIDENTIAL DEMOLITION/MOVE-OFF
QUESTIONNAIRE**

Project Address: _____

	Yes	No
1. Will the demolition/move-off project involve more than a <u>single</u> residential building on this parcel, adjoining parcels, the same block, or specific geographic boundary?	___	___
2. Will the residential building be burned by a municipal fire department for training purposes?	___	___
3. Is the building to be demolished/moved used now, or was it ever previously used, commercially, or by an industrial business, an institution (e.g., church, museum, school, college, etc.), or a public entity (e.g., a federal, state, or local government agency, etc.)?	___	___
4. Is the demolition/move-off part of a larger commercial or public project [e.g., urban renewal, highway/road construction, shopping mall, industrial facility, or other private development such as <u>in-fills or public urban developments (PUD)]</u> ?	___	___

If you answered “**Yes**” to any of the above questions, at least ten (10) working days before the start of the demolition/move-off, complete and submit to the Memphis and Shelby County Health Department-Air Pollution Control Section:

- A complete “Asbestos NESHAP Notification of Demolition and/or Renovation” form for each building, structure, or project
- One Hundred and Thirty Dollars (\$130.00) notification fee
- Written proof (asbestos survey report) the affected facility has been inspected for the presence of asbestos-containing materials.

Approval from Air Pollution Control must be received before the Shelby County Construction Code Enforcement Office will issue demolition permits. This questionnaire is designed to help determine applicability of a project to the National Emission Standards for Hazardous Air Pollutants (NESHAP), Shelby County Air Code (Memphis City Air Code Section 16-81), Section 3-25, Standard for Demolition and Renovation, Reference 1200-3-11-.02. This questionnaire offers assistance for determining regulatory applicability in a majority of situations, but does not cover every scenario.

If you answered “**No**” to all of the questions above, it is likely, but not certain the asbestos NESHAP does not apply to the project. Completion of the questionnaire does not relieve the owner from the requirements of the asbestos NESHAP regulation.

Page Two MSCHD-APC Residential Demolition/Move-off Questionnaire

If uncertain about how to answer the questions above, want to know more about the asbestos NESHAP requirements, have safety concerns regarding asbestos-containing materials, or want to receive the "Asbestos NESHAP Notification of Demolition and/or Renovation" form, please contact Air Pollution Control at the Memphis and Shelby County Health Department located at 814 Jefferson Avenue, 4th Floor, Memphis, TN 38105.

Subject: P.D. 08-333 CC (Applingwood Planned Development)

Mr. Bacchus,

I received the Notice of Public Hearing this week regarding the proposal to allow construction of an Ice Hockey arena at the corner of Appling and Dexter, a mere two blocks from my house. Unfortunately, I will not be able to attend either meeting, but am very interested in this.

First, I would like to request any additional information there is on the matter that was not included in the Notice and/or minutes from both meetings. I appreciate your help in this matter.

Secondly, after careful consideration, I find myself extremely opposed to this development (at least until I may review the additional information and minutes). What body is governing the approval or disapproval of this issue and how do I get in touch with them to let my voice be heard?

Thank you for your assistance and attention.

Subject: P.D.08-333CC Indoor ice rink

I live at Appling Oaks, across from Bellevue Woods. Traffic already makes it hard to get in and out of these areas. The corner of Appling and Dexter traffic is really bad. It backs up something awful at times. What are the plans for improving this intersection?

Can we get a more detailed plan/information off the internet?

My phone number is 388-1982. Thanks for any info.

Brian,

I am appreciative of the notice about the new proposed project. I would like more information about the mixed use planned development. It sounds like more than an indoor amusement facility is planned. That might just be the anchor project. What are the other uses of the property in that development? Please respond to this email as soon as you can.

Thank you,

Mr. Bacchus,

Presently I am scheduled to be out of town on Thursday, January 8th and will not be available to attend the public hearing. However I am very interested in the attached notice and any additional information you can provide such as the full intent, estimated traffic increase, anticipated hours of operation, etc. We are the adjoin office building and there is a nursing home and assisted living adjoined to us.

Please provide this information today so that my company and other companies as well can form a sound position.

Thank you

Jim
