GENERAL SUMMARY

I am an Electrical engineer with twenty-nine years experience in the design of electrical and electrically related systems for industrial, commercial and governmental projects. My design experience includes lighting and lighting control systems, low and medium voltage power distribution, fire detection alarm, security, and communication systems and emergency egress and security lighting systems. I have provided electrical design for many projects at the Naval Activity Services in Memphis, Tennessee including the relocation of the Bureau of Personnel which are highly technical facilities that include complex computer facilities and specialized electrical systems. I also have extensive experience designing University of Tennessee, University of Memphis and Shelby County Projects. I have very extensive knowledge of local and national building and fire codes.
